Selby General Hospital’s
Inpatient Rehabilitation Unit (IPR)
Performance Evaluation: July - September 2021 (3Q)

As we continue to strive toward the highest quality of care available, we also look at our present efforts and find ways to enhance the patient experience. This quality outcome report is an easy way to measure how well our Inpatient Rehabilitation unit is doing.

### Quality Care. It’s what we provide.

As we continue to strive toward the highest quality of care available, we also look at our present efforts and find ways to enhance the patient experience. This quality outcome report is an easy way to measure how well our Inpatient Rehabilitation unit is doing.

### Our Outcomes

- **47.7%** Percentage of patients who are at or above an expected ability to care for themselves at discharge.
- **62.8%** Percentage of patients who are at or above ability to move around at discharge.
- **58.14%** Percentage of functional efficiency met or exceeded the expected improvement in the expected timeframe.

*Higher percentages are better

### 6 Transfers to Acute Care

**Reasons:**
1. Suspected pneumonia
2. Chest pain
3. Embolism/blood clot
4. Surgery
5. Persistent low blood pressure

### About Us
