Other	6	9.6	13.8	67%	72.7%
<b>Total</b>	<b>45</b>	Age Range: 54 - 91 years of age Race/Ethnicity: White - 45			

## Quality Care. It's what we provide.

As we continue to strive toward the highest quality of care available, we also look at our present efforts and find ways to enhance the patient experience. This quality outcome report is an easy way to measure how well our inpatient rehabilitation unit is doing.

### Our Outcomes

- 37.5%** Percentage of patients who are at or above an expected ability to care for themselves at discharge.
- 62.5%** Percentage of patients who are at or above ability to move around at discharge.
- 50%** Percentage of patients who met or exceeded the expected improvement in the expected timeframe.

\*Higher percentages are better

### 3 Transfers to Acute Care

#### Reasons:

1. Acute Hypoxic Resp. Failure/  
Sepsis (2)
2. Neuro Work-up/CVA (1)
