

## Thank you for participating in the 2024 Fund Run!

Funds raised directly benefit our patients with the three funds below:

### **Bariatric Health Initiative**

Supports the long-term success of bariatric surgery patients through diet, exercise and lifestyle goals, encompassing various components.

### **Stroke Rehabilitation Support Initiative**

Provide support for individuals who have survived a stroke or brain injury and their caregivers through support group and structured exercise participation.

### **Diabetes Education Initiative**

Funds are designated to provide a patient-centered experience offering private or group education sessions that allow adults and children with diabetes to better understand and cope with their disease.

### **Memorial Health Foundation**

Since 1981 Memorial Health Foundation, a not-for-profit organization has been dedicated to building a healthier community through education, special patient assistance funds, charity care, state-of-the-art medical equipment, and funding to areas where the need is greatest throughout the Memorial Health System and our community.

But we can't do this alone. We are so grateful for our generous benefactors. With your help, we can continue to provide world-class healthcare close to home. For more information, please contact Memorial Health Foundation at (740) 374-4913 or [foundation@mhsystem.org](mailto:foundation@mhsystem.org).
